Thank you and nice to meet you this morning John,
I got the phone message... jan 6 is the meeting with the fellow from U of WI. Do not hesitate to shoot me another email closer to the date to check in... but writing it in now.

Thanks for the plate... my girlfriend likes it.. she already knew of the artist. As for the flag... I don't have a flag pole but one of my best friends, a vet, is very active in the golden gate VFW and is swinging by later to pick it up... I feel better giving it to them... after all I have drank many a brews with them and have never served... so it has found a good new home.

Most of all thanks for giving me a chance to share my data and field observations, it is an issue of great concern to me. The next generation will need every bit of help we can give them... if not lessening the pollution at least in acknowledging and preparing for the consequences... and denial does neither.

Thank you very much, Sincerely, Mike Barry
